

Westminster Round Up

Members are provided with exclusive support on parliamentary matters, including access to a regular updates from the corridors of power in the Westminster Round-Up.

Campaigns and initiatives

As a member of the Alliance, we will represent you when we speak with Government, policy makers and the media.

- We undertake research and produce reports to evidence the value of sport and recreation and lead public campaigns such as the [Right to Be Active](#).
- Influencing sports policy - The Alliance influences the development of sports policy through a number of different means. We engage with Government ministers and officials, lobby members of Parliament, respond to public consultations and submit evidence to inquiries which affect our members.
- The team works tirelessly to demonstrate the social and economical value of sport and you can click [here](#) to view reports that form a great deal of the basis of our lobbying and policy work
- We also provide Secretariat support for the All-Party Parliamentary Group for Sport, allowing the Group's members to draw on the knowledge and experiences of our members and to hear from guest speakers and parliamentarians.

If you are a member and need support of the Policy team please contact policy@sportandrecreation.org.uk

Latest sector updates

- Daily New Summary - Each day, we compile a roundup of all the important breaking news from across the sector and deliver it straight to your inbox.
- Policy updates - provides you with a roundup of all the important policy developments affecting our sector monthly.
- The Panel - As a member you have the opportunity to join The Panel and have your say on important issues effecting the sector. Every member organisation can sign up as many people as they wish so that they can add their voice to the conversation. This is your opportunity to provide feedback to the Sport and Recreation Alliance to make sure that we are fighting your corner at every opportunity.
